

CAPE D'OR SALMON

CANADIAN. SUSTAINABLE. ORGANIC. ATLANTIC SALMON

Closed Containment

We make sure what comes in doesn't go out. Our facility has 0% risk of fish escaping to rivers and oceans.

Land-Based

Our land-based facility provides security for the fish while minimizing our environmental impact.

Biosecure Seawater Wells

All of our water comes from the ocean and is naturally filtered underground through 600 feet of gravel before being pumped into the facility.

Naturally Raised

Our fish are disease, parasite, chemical, hormone, antibiotic, and GMO free.

Support Local

We provide jobs to rural seacoast Nova Scotians while supporting local and small businesses.

Organic Management

We are in the process of transitioning to full organic management. 85% there and counting!
